Education

Bachelor of Science in Cybersecurity | Completed May 2026

Indiana Tech | Fort Wayne, IN

- GPA: 3.687
- Dean's List 6 out of 7 semesters.
- Tech Applause Student Recognition Award

Experience

Data Center Technician | 05/2025 – 07/2026

AWS | New Carlisle, IN

- Maintained uptime of servers and network infrastructure through proactive monitoring, troubleshooting, and SLA-based capacity restoration.
- Served as an escalation point for complex incidents; led thermal critical investigations, performed root-cause analysis, and resolved 500+ infrastructure tickets.
- Enforced security compliance through asset tracking, data sanitization, and physical audits.
- Trained and onboarded 30+ new staff members, enhancing team skill levels and boosting support efficiency.
- Collaborated closely with engineering teams to resolve critical errors, reducing outage time across multiple customer instances.

Information Technology Service Agent | 09/2024 – 05/2025

Indiana Tech | Fort Wayne, IN

- Administered Active Directory user accounts, including password resets, account analysis, and access management, to support secure access management.
- Resolved technical issues by managing and resolving 200+ support tickets, phone calls, and emails, ensuring prompt solutions.
- Provided guidance to end-users, helping them troubleshoot, while promoting best practices for IT-related tasks.
- Collaborated with management and team members to improve service desk processes, enhance strategies, and maintain high customer satisfaction levels.

Activities

Windows Systems Specialist | 10/2022 – 05/2026

Indiana Tech Cyber Warriors | Fort Wayne, IN

- Performed system analysis on compromised hosts to ensure security compliance.
- Implemented standard operating procedures for systems, resulting in decreased security breaches.
- System administrator tasks such as Group Policy, deploying PowerShell scripts, and administering Active Directory environments.
- Leveraged SIEM platforms for proactive system monitoring and log collection.
- Developed reports for executive audiences to ensure fluid communications.
- Attended and lead multiple team practices, totaling 20 hours per week.
- Curated 25+ technical guides on security, configuration, and general knowledge wiki pages.
- Collaborated with various specialty teams to tackle complicated issues.
- Competed in various competitions, notably earning 6th place in NCCDC.
